THE ABYSS TABLE

PRICE	MATERIALS	FINISHES	DIMENSIONS
£ 15,800.00	High grade wood, glass.		(L) 160 cm (W) 80 cm (H) 46 cm

"AND WHEN YOU GAZE LONG INTO AN ABYSS, THE ABYSS ALSO GAZES INTO YOU."

FRIEDRICH NIETZSCHE

This autumn, Duffy casts an eye downwards – looking to the depths of the ocean to dream up a dramatic new coffee table, that introduces the majesty of the big blue to the interior… As well as servicing you with somewhere impressive to put your cup of tea.

LOOKING INTO THE ABYSS

Like all of Duffy's designs, the Abyss Table is a conversation piece as much as a functional one. But while previous works play with gravity, this new design is concerned with depth, and creates a geological cross-section as mesmerising as the sea.

A CONCEPT INSPIRED BY THE SPACE ODYSSEY SERIES.

This monolithic design takes its inspiration from The Sentinel, a book by Arthur C. Clarke that went on to be made into the film 2001: A Space Odyssey, directed by Stanley Kubrick. A glass table top seems to balance miraculously on top of toppling monoliths, which appear to be frozen in a permanent state of impending collapse.

This mind-boggling creation appears to the naked eye to be an impossible feat, but in reality it has its foundations in real physics.

"YOU CAN'T STOP THE WAVES BUT YOU CAN LEARN TO SURF".
JON KABAT-ZINN

Surfs up! And dinners on the table. The surf-ace Collection is made using traditional surfboard manufacturing techniques giving this pieces the same strong visual language as classic balsa wood surf boards.

Wood has been the material used in the construction of surfboards since the ancient Hawaiians, This collection is not only beautiful to the eye but also to the touch, its sumptuous curves and edges are a treat to the senses as your hands glide over the table.

This modular furniture system was designed in 2000 while Chris Duffy was living in Australia. The concept is based on furniture we made from cube shaped Sydney milk crates and found planks of wood.

The multifunctional possibilities of these two simple components are endless, with the locating feet and holes locking the units together.
